Price Increase for “DENKA Thermosheet EC” and “DENKA ClearsheetC”

We have decided to increase prices of captioned products as follows. Negotiation with customers will be started soon.

Details

1. Effective August 21, 2008 (ETD based)

2. Price increase

DENKA Thermosheet EC	JPY20/kg
DENKA Clearsheet C	JPY20/kg

3. Reasons of price increase

- (1)Recent price increase of raw materials (especially raw materials coming from Naphtha).
- (2)Recent cost increase of utilities, logistics etc.

In fact, we have been making the best effort to keep a stable supply and good quality in order to be a competitive and reliable supplier. As you know, however, recent cost pressure, especially Naphtha price, exceeds our effort. We have already increased price on July 1, 2008. However, raw material prices and energy cost are still sharply rising day by day. The level of the cost-up is so big that we cannot absorb it only by our productivity improvement. As a leading supplier of plastic sheets for carrier tape and plastic film for cover tape, we have obligation and responsibility to maintain stable supply and sustain quality improvements. Under above situations, we are obliged to ask for your understanding and assistance on the price revision of our products.
