## **Price revision for Denka Chloroprene (CR)**

Denki Kagaku Kogyo K.K., known as “Denka” a global producer of CR, continues to experience significant raw material and energy cost steep rise.

Accordingly, Denka announces a price increase of Denka CR at least U\$ 400/MT across all overseas markets and end-users.

Subject to the terms of any applicable contracts, these price increases will take effect no later than July 1, 2010.

We have avoided raising our prices for as long as possible, but we can no longer prolong the inevitable prices.

We wish to thank you for your valued account and know that you will understand the necessity for this price increase.
