Price revision for Toyokalon/Envilon

Kindly be informed that Denka Company Limited will globally increase its sales price for Toyokalon and Envilon, effective from May 1st, 2018.

All types of Toyokalon and Envilon: More than 10%

We have been experiencing substantial increase of PVC resin prices, utility costs, sub-material costs, etc. Despite the measures to absorb the cost hikes, our effort alone cannot absorb all the increasing costs. Consequently, we have decided to raise our price in order to maintain our supply and enterprise.

We deeply appreciate the continuous support of our valued customers and understanding on the price revision.

Sincerely,

Denka Company Limited
