

**Corrections to Eco-Friendly Printing Certifications
Presented on the *Denka Report 2018* and *2019***

We hereby announce that there were errors in the eco-friendly printing certifications presented on the back covers of the *Denka Report 2018* and *2019*. Herein, we issue corrections as detailed below.

We extend our apologies to readers of these publications as well as those concerned for any inconvenience or misunderstanding caused by the misrepresentation of these certifications.

1. Publications in question

- *Denka Report 2018* (integrated report) PDF edition (Japanese, English and Chinese)
- *Denka Report 2019* (integrated report) printed brochure and PDF edition (Japanese, English and Chinese)

2. Detail of corrections

(1) Text attached to the VEGETABLE OIL INK logo

- Uncorrected: 100% vegetable oil inks that contain no volatile organic compounds (VOC) were used in the printing of this report.
- Corrected: This report was printed with vegetable oil ink that contains a low level of volatile organic compounds (VOCs).

(2) Registration number attached to the waterless printing certification symbol depicting a butterfly

Publication	Uncorrected	Corrected
<i>Denka Report 2018</i>	K02	S15
<i>Denka Report 2019</i>	K02	S03

We have already uploaded corrected versions to our corporate website. To view or download the reports in question, please visit the following URL.
