

Price revision for “Denka Fused Silica Filler”

Kindly be informed that Denka Company Limited will increase its global sales price of “Denka Fused Silica Filler”, effective from November 1st, 2021.

1. Product : Denka Fused Silica Filler (FB・FBX)
2. Effective Date : From November 1st, 2021 Delivery based on arrival
3. Price increase : 10~15% of current price

The production cost for Denka Fused Silica Filler has been increasing due to the rising price of silica quartz which is raw material of fused silica.

While we have been making the utmost efforts to cut production costs and other expenses, our effort alone cannot absorb all the increasing costs.

Hence, we have decided to raise our price in order to maintain our supply and business continuity.

About Denka

Denka is a chemical manufacturer headquartered in Chuo-ku, Tokyo. The company specializes in developing business activities on a global scale across a wide range of fields, from inorganic and organic chemicals, to electronic materials and pharmaceuticals. Founded in 1915, Denka has steadily continued to develop and manufacture products that contribute to the development of society by fully utilizing its unique concepts and technological capabilities. Upholding its corporate slogan, “Possibility of chemistry” the company and its president, Toshio Imai, are committed to contributing to the sound development of the society while sincerely tackling the challenges that the society is now confronting.
