

## Announcement of Participation in the Taskforce on Nature-Related Financial Disclosures (TNFD) Forum

Denka Company Limited (Head Office: Chuo-ku, Tokyo; President and CEO: Toshio Imai) announces that the company has participated in the Taskforce on Nature-Related Financial Disclosures (hereinafter TNFD) Forum in August 2024.

The TNFD is an international initiative established in June 2021 as a framework for nature-related financial disclosure, following the Task Force on Climate-related Financial Disclosures (TCFD). It is a task force to visualize risks and opportunities related to natural capital and biodiversity to promote sustainable economic activities. The TNFD Forum, in which we have participated this time, is a gathering of various companies, institutions, and organizations with expertise to support the establishment of a framework for information disclosure.

The Denka Group's ESG basic policy is "Reduction of environmental burden and the preservation of biodiversity". With regard to the preservation and protection of biodiversity, we are conducting survey activities throughout our business sites in Japan to ascertain the impact and dependence of our business activities on the natural environment, and we are promoting the disclosure of this information.

Through its participation in the TNFD Forum, the Denka Group supports the philosophy of the TNFD and will continue to contribute to the realization of a sustainable society through its world-class strength in chemistry for the preservation and protection of biodiversity, with our purpose, "Make the world a better place as specialists in chemistry".
